

# Location Case Security Strap

**PRODUCT PROFILE**

Are you suffering from the theft of your Location Case doors?

In recent years there has been a serious problem on the rail network where removable metal items are being stolen, In particular Location Case Doors leaving the sensitive internal equipment exposed to the elements and vandalism.

Henry Williams Limited have developed a High Security Strap which can be easily retrofitted to the Location Cases by permanently attaching 2 holding brackets one each side and 2 locking bars to the front and back all locked together under a security padlock shroud.

Manufactured from heavy metal duty steel and galvanised to BS EN 1461, Often giving in excess of 50 years corrosion free protection (Galvanizers Association).

## Key Features

Simple initial installation.

Easily removed once padlocks are unlocked.

Improved security.
