SPECIFIC CONDITIONS

MANUFACTURER

Henry Williams Ltd shall:

- ensure that the latest relevant standards/ drawings are available and worked to, and that the product is compliant.
- notify the Network Rail Acceptance Specialist identified in the Acceptance Advice Note:
 - within 48 hours, of any deficiencies affecting the product quality, functionality and safety integrity of the product (including corrective action undertaken or proposed).
 - of any intended change to the accepted product. Changes include:
 - a) a change to the product configuration (to the actual product or its application);
 - b) a variation to or addition of manufacturing locations or processes; and
 - c) a change in the name or ownership of the manufacturing company.
- 5 mA version (HW05) to be supplied with BLACK body.
- 10mA version (HW10) to be supplied with GREY body.
- 5 mA Blue version (HW05BLU) to be supplied with BLUE body.

USER CLAUSES

GENERAL

- 5mA version (HW05) to be used for indications on "vertical" panels only.
- 10mA version (HW10) to be used for all push/pull buttons and indications on "horizontal panel desks.
- 5 mA Blue version (HW05BLU) to be used for 'Auto' signal indications and operating buttons only.
- Blue 'Auto' indications may only be introduced after consultation and agreement with Operations and must be applied throughout a signaller's panel control area.
- Where blue indications are in use, all replacement of LED 'lamps' (including 'white' LEDs) must be covered by a Method Statement / Test Plan which includes a requirement to check replacement " is of correct type". This shall apply to both initial conversion and subsequent replacement of all LEDs (i.e. white or blue at the site).
- Users of the product are responsible for ensuring compliance with the certificate conditions. If a condition is not understood guidance must be sought from the Acceptance Specialist identified in the Acceptance Advice Note.
- Each party in the Network Rail supply chain procuring and receiving the product is responsible for ensuring that it is fit for purpose and that the application of use complies with the scope of acceptance. Any product defect should be taken up immediately with the supplier. If the defect is a design or manufacturing fault likely to affect performance and/or the safe operation of the railway this shall be reported in writing to the Acceptance Specialist identified in the Acceptance Advice Note.
- Anyone becoming aware of a change to the product configuration (to the actual product or its application); and a variation to or addition of manufacturing locations or processes, should inform the Acceptance Specialist in writing.
