

Henry Williams

QUALITY POLICY

Henry Williams Limited is a versatile and multi-skilled engineering business. We specialise in manufacturing products for the railway, highway, automotive truck and bus and oil and gas industries. Our main activities consist of a forge, sheet metal fabrication, electrical engineering and site work.

Henry Williams Limited is committed to delivering a wide range of product and services to meet customer requirements. The requirements of this management system should be considered mandatory on all employees.

The Senior Management Team including the Directors of the Company recognise their responsibilities for managing quality within the Company's activities. To achieve this the company have established an Integrated Management System which complies with the requirements of BS EN ISO 9001:2015 and National Highways Sector Scheme 8.

The intent is to continually improve the effectiveness and implementation of the Integrated Management System and satisfy all applicable requirements relevant to the business.

It is recognised that quality is the responsibility of all employees, and as such the company will;

1. Consider the organisation and its context and subsequent needs and expectations of interested parties this framework will establish the quality objectives.
2. Establish, maintain and implement a process based integrated management system to address the risks and opportunities to the business.
3. Monitor, measure and review performance so as to learn from experience and to ensure continual improvement
4. Ensure that, through the competency management system, all employees are aware of their responsibilities and are capable to undertake their duties whilst also able to develop their skills.

This Policy is displayed on notice boards and the company intranet; awareness training will be given on this policy and the Integrated Management System to all new employees.

Andrew Nelson
Managing Director
